# **ELANTAS PDG, Inc.**

### **ELANTAS Electrical Insulation**

Around the world, ELANTAS Electrical Insulation companies are respected as market leaders in the development and manufacturing of impregnating resins (varnishes), wire enamel, potting compounds and casting resins for a number of electrical, industrial, aerospace and civil applications.

No matter what your challenge, be assured that ELANTAS Electrical Insulation products will meet your most demanding

### **ELANTAS Beck India Limited**

Today, ELANTAS Beck India is recognized as the premier global supplier of specialty polymers for the electrical and electronic industries. ELANTAS Beck India is a member of ALTANA's ELANTAS Electrical Insulation Division based in Wesel, Germany.

With the support of ALTANA and by working with other ALTANA divisions, we offer a unique global approach to research, manufacturing and service that translates into more creative solutions, dependable supply and consistently high quality.

Many ELANTAS Beck India products are recognized as components of electrical insulation systems in accordance with UL 1446. ELANTAS PDG, Inc. is registered to ISO 9001:2000, ISO 14000, ISO 18000 integrated management system

**Solid Insulation Solutions for Motors and Motor Repair** 

ELAN-Film® HT-180

# **ELAN-Film®** for Motors and Motor Repair

Motors turn electrical energy into mechanical energy to perform various work functions for a multitude of diverse applications.

Modern day electric motors perform much of the work required for daily living. Motor performance is dependent upon efficient and effective electrical insulation to provide protection from premature failure.

## **Product Summary**

ELAN-Film®HT-180 is a composite PET film coated on each side with a 50 gauge layer of Tritherm® polyamideimide. The composite construction gives the film a fully integrated structure suitable for slitting, forming and cutting.

**Tritherm**® products have served a long history as a high performing primary insulation for magnet wire.

ELAN-Film® HT-180 offers superior electrical properties and is rated as UL Class H (180°C).

ELAN-Film® HT-180 provides outstanding moisture and chemical resistance and has excellent bonding with ELANTAS Brand varnishes and secondary insulating resins.

of professionals with access to the latest international research developments and technical advancements in the production of high quality electrical insulation products offering long term reliability.

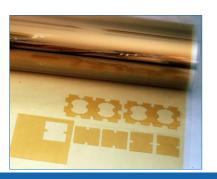

## **Solutions For**

- Wedges
- Slot Liners
- Phase Separation / Phase Liner
- High Temperature Environments

## **Application Methods**

- Laser Cutting
- Die Cutting
- Mechanical Insertion

## **Product Characteristics at a Glance**

UL Classification						
Property	Property Test Method		Value	Class		
Thermal Classification	UL 1446	Û&	180	Н		

Electrical Properties of ELAN-Film® HT-180							
Property	Test Method Units		114 µm film	190 µm film	279 μm film		
Dielectric Strength	ASTM D149	Volts	11,100	14,300	16,100		
Volume Resistivity	ASTM D257	ohms-cm	1010	1010	1012		
Surface Resistivity	ASTM D257	ohms/square	10 <sup>13</sup>	1010	1017		

Water Absorption of ELAN-Film® HT-180						
Property	Test Method	Unit	Result			
Water Absorption	Full immersion of test sample in	Percent	114 µm film	190 µm film	279 μm film	
	water for 24 hours	Gain	0.5	0.4	0.4	

Dissipation Factor and Dielectric Constant of ELAN-film® HT-180 in Humid Environments (215 μm total film thickness)						
Conditions (DC + DF tested at 25°C)	Dielectric Constant			Dissipation Factor		
	100 Hz	500 Hz	1 kHz	100 Hz	500 Hz	1 kHz
Tested as is	2.4	3.1	3.4	0.03	0.003	0.008
After 168 hours in 100% KXPlGLW\ DW U&	2.2	3.1	3.7	0.02	0.005	0.008
