

Press Release

ELANTAS PDG, Inc. to Showcase Innovative Conformal Coatings and Potting Materials at IPC APEX EXPO 2024

St. Louis, MO, March 15, 2024 – ELANTAS PDG, Inc., a global leader in the development and manufacturing of liquid insulation materials for electronic and electrical equipment, is excited to announce its participation in the upcoming IPC APEX EXPO 2024 trade show. The expo is set to take place from April 9 – 11, 2024 at the prestigious Anaheim, Convention Center, where ELANTAS will be located at booth # 4342.

IPC APEX 2024, renowned for being a cornerstone event in the electronics manufacturing industry, offers an unparalleled platform for professionals to explore the latest innovations, trends, and technologies. ELANTAS is thrilled to be at the forefront of this gathering, showcasing our advanced conformal coatings and potting materials designed specifically for electronic applications.

“Our team is eagerly looking forward to connecting with other industry professionals and demonstrating how our products can revolutionize electronic insulation,” said Scott Stephan, Director – Electronic Business Line at ELANTAS PDG, Inc. “Our conformal coatings and potting materials are engineered to provide superior protection and performance, ensuring the reliability and longevity of electronic components in various applications.”

Attendees visiting booth # 4342 will have the unique opportunity to discover the cutting-edge solutions that ELANTAS offers. Highlights include:

- **Advanced Conformal Coatings:** Designed to protect printed circuit boards (PCBs) and electronic assemblies from environmental stress and contaminants, these coatings ensure optimal performance and durability.
- **High-Performance Potting Materials:** Offering exceptional insulation, thermal conductivity, and mechanical protection, our potting compounds are ideal for encapsulating delicate electronic components.

“Our participation in IPC APEX EXPO 2024 underscores our commitment to innovation and excellence in the electronic materials industry,” added Scott Stephan. “We invite all attendees to visit our booth to learn more about our

About ELANTAS:

ELANTAS, a company of ALTANA AG, produces protective materials and liquid insulating materials for the electrical and electronics industry. The products are used, for example, in electric motors, household appliances, cars, generators, wind turbines, transformers, capacitors, lights, and sensors. They help product developers build ever smaller and more powerful electrical and electronic devices, thus saving material and energy. At the same time, the products help to extend the life cycle of electrical and electronic components. ELANTAS products support the transition to eMobility and Green Energy for a more sustainable future. ELANTAS is represented by over 20 manufacturing companies in all the world's major regions. In 2023, the company employed more than 2,000 people.

About ALTANA:

ALTANA is a global leader in true specialty chemicals. The Group offers innovative, environmentally compatible solutions for coating manufacturers, paint and plastics processors, the printing and packaging industries, the cosmetics sector, and the electrical and electronics industry. The product range includes additives, specialty coatings and adhesives, effect pigments, sealants and compounds, impregnating resins and varnishes, and testing and measuring instruments. ALTANA's four divisions, BYK, ECKART, ELANTAS, and ACTEGA, all occupy a leading position in their target markets with respect to quality, product solution expertise, innovation, and service.

Headquartered in Wesel, Germany, the ALTANA Group has more than 50 production facilities and more than 60 service and research laboratories worldwide. Throughout the Group, about 8,000 people work to ensure the worldwide success of ALTANA. In 2022, ALTANA achieved sales of more than € 3 billion. About 7 percent of the total sales is invested in research and development each year. Its high earning power and high growth rate make ALTANA one of the world's most innovative, fastest growing, and most profitable chemical companies.
